Spray foam solutions for industrial, commercial, and residential markets in WA and QLD.

[www.SprayfoamBrisbane.com.au](http://www.SprayfoamBrisbane.com.au)

[www.cavitywallinsulation.com.au](http://www.cavitywallinsulation.com.au)

Accredited installer for Knauf Insulation Supafil® CarbonPlus, glasswool insulation application designed for installation into existing and new cavities wall systems.

Thermal Efficiency. Energy Performance. Sustainability.

# Core Capabilities

---

Existing Homes. New Builds. Commercial. Property Developments. Multi Story Dwellings. Industrial.

## SUPPLY AND INSTALL INSULATION BATTS

We supply and install a wide range of insulation batts specified for roof, ceiling, walls, subfloors and mid floors.

## SPECIALISED CAVITY WALL INSULATION

Certified provider and installer of glass wool CavityWall insulation pumped into 50mm + wall cavities and inaccessible areas.

## TECHNICAL INSULATION TEAM

Technically trained and highly capable projects team ensuring quality of advice on thermal, energy, and acoustic requirements of all projects are met.

## SPRAYFOAM INSULATION SPECIALIST

Supplier and installer of closed-cell spray foam insulation products providing superior airtightness and R value.

## REMOVE & DISPOSE INSULATION

Remove and dispose inferior insulation batts, old blow-in insulation, dust and debris.

## GUARANTEE OF INSULATION SUPPLY

Through EEG's long term relationship with material suppliers, we guarantee secure product availability and quality.

## CAPABILITY AND INSTALL RATE

EEG installers are trained and employed in-house ensuring quality and supervision of workmanship capable of up to 8,000m<sup>2</sup> install rate per day.

**Thermal Efficiency. Energy Performance. Sustainability.**

# Mission and Vision

---

The core mission and values of Energy Efficiency Group

## INSULATION INDUSTRY LEADER

We are always striving to be at the forefront of sustainability and quality ensuring the products we utilize are rigorously tested, certified, and approved for Australia's harshest conditions.

## OUR PEOPLE

To develop our people to be better every day by implementing a strong culture of training, learning, and personal development.

## OUR PURPOSE

To maximize the thermal, acoustic and energy efficiencies to meet all project requirements in either residential, industrial, or commercial sectors.

## OUR SAFETY

Through our culture of training and zero tolerance for safety incidents, we implement a safety first attitude on every site.

## OUR VALUES

Are to echo throughout; either in the office or on the field, being; Family, Trust, Integrity, and Loyalty.

Thermal Efficiency. Energy Performance. Sustainability.

# Notable Projects

---

We have worked with over 9,000 individual homeowners and recently the following Commercial, Residential and Industrial projects.

**Project:** ATSC Building Modernization Perth Airport  
**Scope:** Cavity Wall Insulation to existing building to improve thermal and acoustic performance.  
**m2:** 200m2

**Project:** BGC Construction: Shenton Park Apartments  
**Scope:** Cavity Wall Insulation to 12 units to upgrade thermal thermal & acoustic performance.  
**m2:** 1000m2

**Project:** Water Corporation Perth  
**Scope:** Cavity Wall Insulation to increase thermal & acoustic performance of switchrooms.  
**m2:** 55m2

**Project:** Department of Biodiversity & Conservation  
**Scope:** Removal of existing insulation / vacuum Roof Space, new insulation install for Kings Park Heritage Building .  
**m2:** 140m2

**Project:** RCQ Developments  
**Scope:** Wall wrap and insulation install for 45 townhouse developments .  
**m2:** 12,000m2

**Project:** Woolworths Maryborough  
**Scope:** Supply & Install 35mm R 1.8 Closed Cell Spray Foam Insulation to under-slab below cool rooms & cases.  
**m2:** 1,449m2

**Project:** Royal Wolf  
**Scope:** Supply & Install 35mm R 1.8 Closed Cell Spray Foam Insulation 8 x 40ft Shipping Containers.  
**m2:** 120m2
